

PROGRAMS OF STUDY

South Piedmont Community College offers programs of study in a wide range of college transfer and career areas. These programs of study lead to a certificate, a diploma, or an associate degree.

Most courses are offered on a 16-week semester basis or 80 school days. Courses may also be offered as 12-week, 8-week, or 4-week sessions. Courses are offered during the day, evenings, weekends, and as distance learning. Not all programs courses are offered at all of these times or as distance learning options.

South Piedmont Community College ensures all graduates of its degree and diploma programs have achieved competence in reading, writing, oral communication, fundamental mathematical skills, and basic use of computers by placing out of or successfully completing courses at the DRE 098 and DMA 050 levels.

College Transfer

College Transfer programs are designed to parallel the freshman and sophomore years of a four-year college or university. During the first two years of college, students take a program of general education coursework in the areas of English composition, humanities and fine arts, social and behavioral sciences, and natural sciences and mathematics. These general education courses will enable students to gain a well-rounded education before going on to a four-year college or university.

College Transfer students may work toward an Associate in Arts (A.A.), Associate in Fine Arts (A.F.A.), or an Associate in Science (A.S.) Degree. Students may attend classes full time or part time during the day, evening, or online.

During the first semester, students are assigned an advisor who will help select appropriate courses. All courses are approved by the State's Transfer Advisory Committee and will meet general education requirements in all schools in the University of North Carolina system. Students must meet the receiving university's health and physical education requirements, if applicable, prior to or after transfer to the senior institution.

Community College graduates of the Associate in Arts or Associate in Science degree programs who have earned 60 semester hours in approved transfer courses with a grade of "C" or better in each course and an overall GPA of at least 2.0 on a 4.0 scale will receive at least 60 semester hours of academic credit upon admission to a UNC institution. Due to degree requirements in some majors, additional courses at the UNC institution may be required beyond the general education courses and pre-major courses taken at the community college. Courses offered through bilateral agreements may not transfer to all receiving institutions.

Courses that have been approved by the North Carolina Community College System and the University of North Carolina system as Universal General Education Transfer Component (UGETC) courses are designated in bold in this catalog within the programs of study.

Associate in Arts Degree

(A10100)

The Associate in Arts degree is recommended for students who plan to transfer to four-year colleges or universities to pursue the Bachelor of Arts degree.

GENERAL EDUCATION CORE45 SHC

English Composition (6 SHC)

- **ENG 111** Writing and Inquiry
- **ENG 112** Writing/Research in the Disciplines

Humanities/Fine Arts (9 SHC)

- Choose three courses (minimum 2 subjects) from the following:
 - Art (**ART 111, ART 114, ART 115**)
 - Literature (**ENG 231, ENG 232, ENG 241, ENG 242**)
 - Music (**MUS 110, MUS 112**)
 - Philosophy (**PHI 215, PHI 240**)

Social/Behavioral Sciences (9 SHC)

- Choose three courses (minimum 2 subjects) from the following:
 - Economics (**ECO 251, ECO 252**)
 - History (**HIS 111, HIS 112, HIS 131, HIS 132**)
 - Political Science (**POL 120**)
 - Psychology (**PSY 150**)
 - Sociology (**SOC 210**)

Mathematics (3 SHC)

- Choose one course from the following:
 - Mathematics (**MAT 143, MAT 152, MAT 171**, *Direct placement into MAT-271 may be substituted*)

Natural Sciences (4 SHC)

- Choose one course from the following:
 - Astronomy (**AST 111/AST 111A; AST 151/AST 151A**)
 - Biology (**BIO 110, BIO 111**)
 - Chemistry (**CHM 151**)
 - Physics (**PHY 110/PHY 110A**)

Additional General Education (14)

TOTAL SEMESTER HOURS CREDIT (SHC) IN PROGRAM61 SHC

A community college student who was enrolled in an Associate in Fine Arts (AFA) degree program and who satisfactorily completed the courses with a grade of "C" or better in all courses that are designated for college transfer will receive credit for those courses. AFA students completing Universal General Education Transfer Component courses will receive equivalent general education course credit for those courses at the receiving institution. For courses not designated as Universal General Education Transfer Component, the receiving institution will determine whether the course will count as general education or pre-major/elective credit. Students in the AFA programs who transfer must meet the general education requirements of the receiving institution.

Associate in Fine Arts in Visual Arts Degree

(A10600)

The Associate in Arts in Visual Arts degree is recommended for students who plan to transfer to four-year colleges or universities to pursue the Bachelor of Arts degree.

TOTAL SEMESTER HOURS CREDIT (SHC) IN PROGRAM60 SHC

The Associate in General Education degree does not meet the standards of the Comprehensive Articulation Agreement with the UNC System, and therefore, is a terminal program and will not transfer to four-year institutions.

Associate in General Education Degree

(A10300)

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Communications (6 SHC)

- English Composition (**ENG 111**)
- Communication (Choose one course: COM 110, COM 120, COM 140, **COM 231**)

Humanities/Fine Arts (3 SHC) Choose one course:

- Art (**ART 111**, **ART 114**, **ART 115**)
- Drama (DRA 111)
- Interdisciplinary Humanities (HUM 120, HUM 130, HUM 160, HUM 211, HUM 212)
- Music (**MUS 110**, **MUS 112**)
- Philosophy (**PHI 215**, **PHI 240**)
- Religion (REL 110, REL 211, REL 212, REL 221)

Social/Behavioral Sciences (3 SHC) Choose one course:

- Economics (**ECO 251**, **ECO 252**)
- Geography (GEO 111)
- History (**HIS 111**, **HIS 112**, **HIS 131**, **HIS 132**)
- Political Science (**POL 120**, POL 210, POL 220)
- Psychology (**PSY 150**)
- Sociology (**SOC 210**, SOC 213, SOC 220, SOC 225)

Natural Sciences/Mathematics (3 SHC)

- Choose one course from the following:
 - Astronomy (**AST 111/AST 111A**)

- Biology (**BIO 110**, BIO 140)
- Chemistry (**CHM 151**)
- Mathematics (**MAT 143, MAT 152, MAT 171**)
- Physics (**PHY 110/PHY 110A**)

OTHER REQUIRED HOURS50 SHC

Required Courses (4 SHC)

- CIS 110

CAREER ORIENTED PROGRAMS

Accounting Degree

(A25100)

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Communications (6 SHC)

- English Composition (**ENG 111**)
- Communication (Choose one course: COM 110, COM 120, COM 140, **COM 231**)

Humanities/Fine Arts (3 SHC) Choose one course:

- Art (**ART 111, ART 114, ART 115**)
- Drama (DRA 111)

Advertising and Graphic Design Degree (A30100)

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Agribusiness Technology Degree (A15100)

The Agribusiness Systems curriculum are designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. The objective is the development of a workforce knowledgeable in sustainable agriculture practices.

Students will learn the fundamentals of agriculture, focusing on crop production and business. Emphasis is placed on entrepreneurial and field training. Students will also learn the basic principles of our economic system and government policies and programs relating to agriculture.

Graduates should qualify for a variety of jobs in agricultural businesses such as equipment, feed, and agricultural supply sales; store management; farm operations, wholesale and retail produce management; nursery operations; and environmental and agricultural education.

The Agribusiness Technology program prepares individuals to manage agricultural businesses and agriculturally related operations within diversified corporations. Potential course work includes instruction in agriculture, agricultural specializations, business management, accounting, finance, marketing, planning, human resources management, and other managerial responsibilities.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Communications (6 SHC)

- English Composition (**ENG 111**)
- Communication (Choose one course: COM 110, COM 120, COM 140, **COM 231**)

Air Conditioning, Heating, and Refrigeration Technology Degree (A35100)

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools, and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

Associate Degree Nursing Degree
 (A45110)

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of health care, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

The SPCC Associate Degree Nursing Program is approved by the North Carolina Board of Nursing. Contact the Board at P. O. Box 2129, Raleigh, NC 27602-2129, or 4516 Lake Boone Trail, Raleigh, NC 27607, or call 919-782-3211 for questions about the approval.

Automotive Systems Technology Degree

(A60160)

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/trans axles, and sustainable transportation, depending on the program major area chosen.

Graduates of this pathway should be prepared to take professional licensure exams, which correspond to certain programs of study, and to enter careers as entry-level technicians in the transportation industry.

The Automotive Systems Technology curriculum prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles. The program includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air condition systems.

Basic Law Enforcement Training Certificate

(C55120)

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcohol beverage laws; investigative, patrol, custody, and court procedures; emergency responses; and ethics and community relations.

Students must successfully complete and pass all units of study mandated by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission to receive a certificate.

		Class	Lab	Clinic/Exp	Credit
CJC 100	Basic Law Enforcement Training	9	30	0	19

TOTAL CREDIT HOURS IN CERTIFICATE 19

BLET and Criminal Justice Technology

Students successfully completing a BLET training course accredited by the NC Criminal Justice Education and Training Standards Commission and the NC Sheriffs' Education and Training Standards Commission will receive credit for CJC 131, CJC 132, CJC 221, and CJC 231. Students must successfully complete the training course AND the state certification examination to receive credit for these courses. Students must have completed BLET training since 1985. SPCC only ensures acceptance of these transfer credits to its Associate in Applied Science - Criminal Justice Technology degree, diploma, and certificate programs. These transfer credits may or may not be accepted by a four-year institution to which a student intends to transfer.

Business Administration Degree

(A25120)

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

Cardiovascular Sonography Degree (A45160)

The Cardiovascular Sonography curriculum provides the individual with the knowledge and skills necessary to acquire, process, and evaluate the human heart and vascular structures. A cardiovascular sonographer uses high frequency sound waves to produce images of the heart and vascular structures.

Course work includes effective communication and patient care skills combined with a knowledge of physics, human anatomy, physiology, and pathology, all of which are essential to obtaining high quality sonographic images.

Graduates may be eligible to apply to the American Registry of Diagnostic Medical Sonographers for examination in physics, cardiovascular physics, vascular physics, and adult echocardiography. Graduates may find employment in hospitals, physicians' offices, mobile services, and educational institutions.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Criminal Justice Technology Degree (A55180)

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Criminal Justice Technology and BLET

Students successfully completing a BLET training course accredited by the NC Criminal Justice Education and Training Standards Commission and the NC Sheriffs' Education and Training Standards Commission will receive credit for CJC 131, CJC 132, CJC 221, and CJC 231. Students must successfully complete the training course AND the state certification examination to receive credit for these courses. Students must have completed BLET training since 1985. SPCC only ensures acceptance of these transfer credits to its Associate in Applied Science - Criminal Justice Technology degree, diploma, and certificate programs. These transfer credits may or may not be accepted by a four-year institution to which a student intends to transfer.

Culinary Arts Degree (A55150)

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

Cyber Crime Technology Degree

(A55210)

The Cyber Crime Technology curriculum will prepare students to enter the field of computer crime investigations and private security. Students completing this curriculum will be capable of investigating computer crimes, properly seize and recover computer evidence and aid in the prosecution of cyber criminals.

Course work in this curriculum will include a division of work in the disciplines of criminal justice and computer information systems. Additionally, students will be required to take specific cyber crime classes.

Graduates should qualify to become computer crime investigators for local or state criminal justice agencies. Also these graduates should be competent to serve as computer security specialists or consultants with private business.

Early Childhood Education Degree

(A55220)

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will foster the cognitive/ language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

The SPCC Early Childhood Program is accredited by the National Association for the Education of Young Children (NAEYC), www.naeyc.org.

Electrical Systems Technology Degree
(A35130)

The Electrical Systems Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronics field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Communications (6 SHC)

- English Composition (**ENG 111**)
- Communication (Choose one course: COM 110, COM 120, COM 140, **COM 231**)

Humanities/Fine Arts (3 SHC) Choose one course:

- Art (**ART 111, ART 114, ART 115**)
- Drama (DRA 111)
- Interdisciplinary Humanities (HUM 120, HUM 130, HUM 160, HUM 211, HUM 212)
- Music (**MUS 110, MUS 112**)
- Philosophy (**PHI 215, PHI 240**)
- Religion (REL 110, REL 211, REL 212, REL 221)

Social/Behavioral Sciences (3 SHC) Choose one course:

- Economics (**ECO 251, ECO 252**)
- Geography (GEO 111)
- History (**HIS 111, HIS 112, HIS 131, HIS 132**)
- Political Science (**POL 120, POL 210, POL 220**)
- Psychology (**PSY 150**)
- Sociology (**SOC 210, SOC 213, SOC 220, SOC 225**)

Natural Sciences/Mathematics (3 SHC) Choose one course:

- Mathematics (**MAT 143, MAT 152, MAT 171**)
- Physics (**PHY 110/PHY 110A**)

Emergency Medical Science Degree (A45340)

The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergency patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence-based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

Fire Protection Technology Degree

(A55240)

The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Course work includes diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws, as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire, risk assessment and management; and relevant research, communications, and leadership methodologies.

Employment opportunities exist with fire departments, governmental agencies, industrial firms, insurance rating organizations, and educational organizations.

Collaborative Program Offered in Cooperation with Central Piedmont Community College

In this Instructional Service Agreement, students may take general education courses at South Piedmont Community College. Central Piedmont Community College will provide the FIP prefix courses as specified in the CPCC Fire Protection Technology curriculum. Students who successfully complete all requirements of the Fire Protection Technology program will be awarded an Associate in Applied Science Degree by Central Piedmont Community College.

General Occupational Technology Degree

(A55280)

The General Occupational Technology (GOT) curriculum provides individuals with an opportunity to upgrade skills and to earn an associate degree, diploma, and/or certificate by taking courses suited for individual occupational interests and/or needs.

The curriculum content will be customized for students according to occupational interests and needs. A program of study for each student will be selected from any non-developmental level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

Students wishing to major in General Occupational Technology are required to have an approved individualized program of study to enroll in this program. Information may be obtained in the Student Services Division. This program does not meet the standards of the Comprehensive Articulation Agreement with the UNC System and, therefore, is a terminal program and will not transfer to four-year institutions.

All courses included in the GOT must be taken from approved associate in applied science (AAS) degree, diploma, or certificate programs.

Human Services Technology Degree

(A45380)

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

Industrial Systems Technology Degree (A50240)

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in print reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as lifelong learners.

GENERAL EDUCATION REQUIREMENTS (15 Credit Hours)

Communications (6 SHC)

- English Composition (**ENG 111**)
- Communication (Choose one course: COM 110, COM 120, COM 140, **COM 231**)

Humanities/Fine Arts (3 SHC) Choose one course:

- Art (**ART 111, ART 114, ART 115**)
- Drama (DRA 111)
- Interdisciplinary Humanities (HUM 120, HUM 130, HUM 160, HUM 211, HUM 212)
- Music (**MUS 110, MUS 112**)
- Philosophy (**PHI 215, PHI 240**)
- Religion (REL 110, REL 211, REL 212, REL 221)

Social/Behavioral Sciences (3 SHC) Choose one course:

- Economics (**ECO 251, ECO 252**)
- Geography (GEO 111)
- History (**HIS 111, HIS 112, HIS 131, HIS 132**)
- Political Science (**POL 120, POL 210, POL 220**)
- Psychology (**PSY 150**)
- Sociology (**SOC 210, SOC 213, SOC 220, SOC 225**)

Natural Sciences/Mathematics (3 SHC) Choose one course:

- Mathematics (**MAT 143, MAT 152, MAT 171**)
- Physics (**PHY 110/PHY 110A**)

Infant/Toddler Care Certificate

(C55290)

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development: physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design and implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

Information Technology Degree

(A25590)

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work will includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

Licensed Practical Nurse Refresher Certificate
 (C45390)

The Licensed Practical Nurse Refresher curriculum provides a refresher course for individuals previously licensed as Practical Nurses and who are ineligible for reentry into nursing practice due to a lapse in licensure for five or more years. *Individuals entering this curriculum must have been previously licensed as a Practical Nurse.*

Course work includes common medical-surgical conditions and nursing approaches to their management, including mental health principles, pharmacological concepts, and safe clinical nursing practice.

Graduates will be eligible to apply for reinstatement of licensure by the North Carolina Board of Nursing. Employment opportunities include hospitals, long term care facilities, clinics, physicians' offices, industry, and community health agencies.

Mechanical Engineering Technology Degree
 (A40320)

The Mechanical Engineering Technology curriculum prepares graduates for employment as technicians in the diversified mechanical and manufacturing engineering fields. Mechanical Engineering technicians assist in design, development, testing, process design and improvement, and troubleshooting and repair of engineered systems. Emphasis is placed on the integration of theory and hands-on application of engineering principles.

In addition to course work in engineering graphics, engineering fundamentals, materials and manufacturing processes, mathematics, and physics, students will study computer applications, critical thinking, planning and problem solving, and oral and written communications.

Graduates of the curriculum will find employment opportunities in the manufacturing or service sectors of engineering technology. Engineering technicians may obtain professional certification by application to organizations such as ASQC, SME, and NICET.

Mechatronics Engineering Technology Degree

(A40350)

The Engineering and Technology curriculums are designed to prepare students through the study and application of principles from mathematics, natural sciences, and technology and applied processes based on these subjects.

Course work includes mathematics, natural sciences, engineering sciences and technology.

Graduates should qualify to obtain occupations such as technical service providers, materials and technologies testing services, process improvement technicians, engineering technicians, industrial and technology managers, or research technicians.

Mechatronics Engineering Technology is a course of study that prepares the students to use basic engineering principles and technical skills in developing and testing automated, servomechanical, and other electromechanical systems. Study includes instruction in prototype testing, manufacturing and operational testing, systems analysis and maintenance procedures. Graduates should be qualified for employment in industrial maintenance and manufacturing including assembly, testing, startup, troubleshooting, repair, process improvement, and control systems, and should qualify to sit for Packaging Machinery Manufacturers Institute (PMMI) mechatronics or similar industry examinations.

Medical Office Administration Degree (A25310)

This curriculum prepares individuals for employment in medical and other health-care related offices.

Course work will include medical terminology; information systems; office management; medical coding, billing, and insurance; legal and ethical issues; and formatting and word processing. Students will learn administrative and support functions and develop skills applicable in medical environments.

Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care related organizations.

Medical Sonography Degree

(A45440)

The Medical Sonography curriculum provides knowledge and clinical skills in the application of high frequency sound waves to image internal body structures.

Course work includes physics, cross-sectional anatomy, abdominal, introductory vascular, and obstetrical/gynecological sonography. Competencies are attained in identification of normal anatomy and pathological processes, use of equipment, fetal growth and development, integration of related imaging, and patient interaction skills.

Graduates of accredited programs may be eligible to take examinations in ultrasound physics and instrumentation and specialty examinations administered by the American Registry of Diagnostic Medical Sonographers and find employment in clinics, physicians' offices, mobile services, hospitals, and educational institutions.

The SPCC Medical Sonography Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Joint Review Committee for Diagnostic Medical Sonography (JRCDMS). Contact the Commission on Accreditation of Allied Health Education Programs, www.caahep.org, 1361 Park Street, Clearwater, FL 33756, or call 727-210-2350 for questions about the accreditation.

Musculoskeletal Sonography (Certificate)

(C45850)

The Musculoskeletal Sonography curriculum provides sonographers the didactic and clinical experience necessary to perform entry level musculoskeletal (MSK) sonography.

Course work includes introduction to normal and abnormal anatomy and physiology of the upper and lower musculoskeletal system using state-of-the-art equipment.

Graduates may be eligible to apply to the American Registry of Diagnostic Medical Sonography (ARDMS) for national registry in Musculoskeletal Sonography. Graduates may find employment in clinics, hospitals, physicians' offices, mobile services, and educational institutions.

Individuals entering this curriculum must be registered or registry-eligible for the American Registry of Diagnostic Medical Sonography (ARDMS) or American Registry for Radiologic Technology (ARRT) exam for sonography.

Paralegal Technology Degree (A25380)

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

The SPCC Paralegal Technology Program is an institutional member of the American Association for Paralegal Education (AAfPE), www.aafpe.org. Accreditation through AAfPE allows graduates of the degree program to sit for the North Carolina Paralegal Certification Exam.

Practical Nursing Diploma

(D45660)

The Practical Nursing curriculum provides knowledge and skills to integrate safety and quality into nursing care to meet the needs of the holistic individual which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes safe, individualized nursing care and participation in the interdisciplinary team while employing evidence-based practice, quality improvement, and informatics.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physicians' offices.

The SPCC Practical Nursing Diploma Program is approved by the North Carolina Board of Nursing. Contact the Board at P. O. Box 2129, Raleigh, NC 27602-2129, or 4516 Lake Boone Trail, Raleigh, NC 27607, or call 919-782-3211 for questions about the approval.

School-Age Education Degree

(A55440)

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs, before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

Simulation and Game Development Degree
(A25450)

The Simulation and Game Development curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3-D modeling, and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, testers, quality assurance analysts, engineers and administrators in the entertainment industry, health care, education, corporate training, and government organizations.

Collaborative Program Offered in Cooperation with Central Piedmont Community College

In this Instructional Service Agreement, Central Piedmont Community College will provide the courses labeled (CPCC) in the Simulation and Game Development curriculum. South Piedmont Community College will provide all other courses within the program. Students who successfully complete all requirements of the Simulation and Game Development program will be awarded an Associate in Applied Science degree by Central Piedmont Community College.

GENERAL EDUCATION REQUIREMENTS (18 Credit Hours)

Communications (9 SHC)

- English (**ENG 111**, ENG 113)
- Communication (Choose one course: COM 110, COM 120, **COM 231**)

Humanities/Fine Arts (3 SHC) Choose one course:

Therapeutic Massage Degree (A45750)

The Therapeutic Massage curriculum prepares graduates to work in direct client care settings to provide manipulation, methodical pressure, friction and kneading of the body for maintaining wellness or treating alterations in wellness throughout the lifespan.

Courses will include content in normal human anatomy and physiology, therapeutic massage, ethical/legal issues, business practices, nutrition and psychology.

Employment opportunities include hospitals/rehabilitation centers, health departments, home health, medical offices, nursing homes, spas/health/sports clubs, and private practice. Graduates may be eligible to take the Massage and Bodywork Licensing Exam.

The Therapeutic Massage program is a 1 + 1 diploma/degree option. In order to progress into the Associate in Applied Science degree, students must have successfully completed the diploma option with a 3.0 GPA.

Welding Technology Diploma (D50420)

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses may include math, print reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.
