

We have partnered with BibliU to provide academics and students with digital access to course content. With BibliU, you can access textbooks any time, on any device. BibliU's mission is to make learning more effective and efficient for every student.

### **Automated, Seamless Account Setup**

Direct integration with VLE/LMS system allows instant seamless account creation.

### **Analytics**

A comprehensive analytics dashboard allows academics to assess overall, cohort and student use patterns.

### **BibliU Apps & Offline Downloads**

Available offline and online, BibliU syncs annotations and highlights across devices.

### **Deep Linking**

A full list of chapter/page links allows direct linking to sections of a book across course content.

## **You can make resources available to students from multiple sources:**

- BibliU can be integrated into LMS/VLEs
- BibliU can be integrated into Library Discovery systems
- BibliU can be integrated into Reading List systems
- Add links to resources for students (eg Powerpoints)
