

Authenticating Bibliu in your Canvas course

Students and Faculty must access Bibliu through each of their classes – through the link on the left hand side of Canvas or Embedded in Moodle. This is CRITICAL as this is how the books are tied to the student/faculty, and their course. After they have done this, for each course, they are able to utilize the Bibliu app that is embedded into SPCC Navigate.

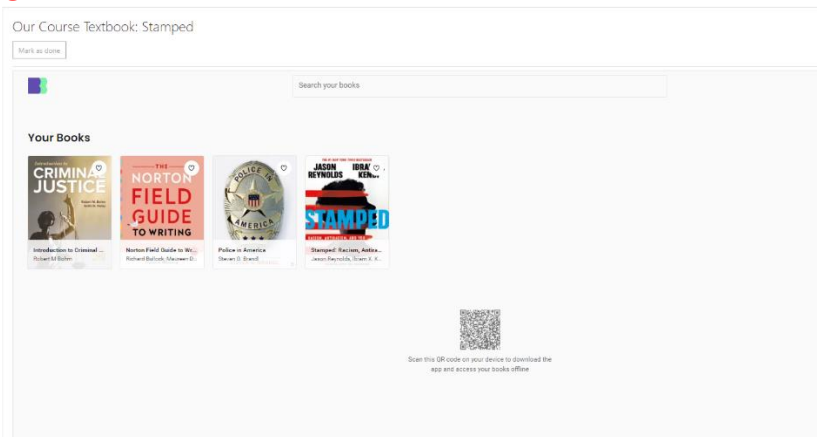

In order to authenticate your Bibliu e-textbook/OER resource follow this single step in each of your Canvas courses:

Click on the Bibliu button in your course Navigation.

You will see all the Bibliu resources assigned to your course.

SAMPLE

IMPORTANT NOTE: The first time you access Bibliu, you must do so through the course directly. After you have accessed your Bibliu textbook at least once through each class, you can then utilize the Bibliu app that is embedded in SPCC Navigate.

Click on this link to find out more about the key features of Bibliu.
