

Canvas Installation Guide

1. First, login into your canvas installation

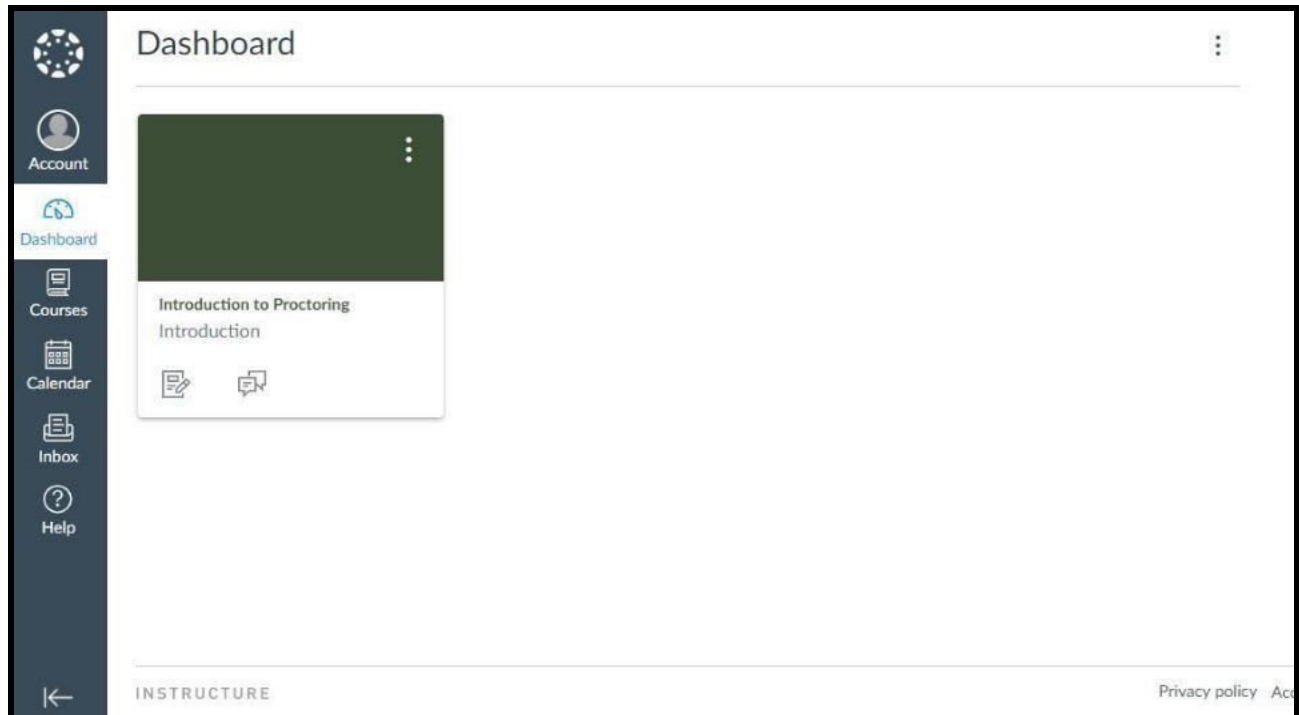

Navigate to Admin > Developer Keys > Inherited and enable Proctortrack(state : ON)

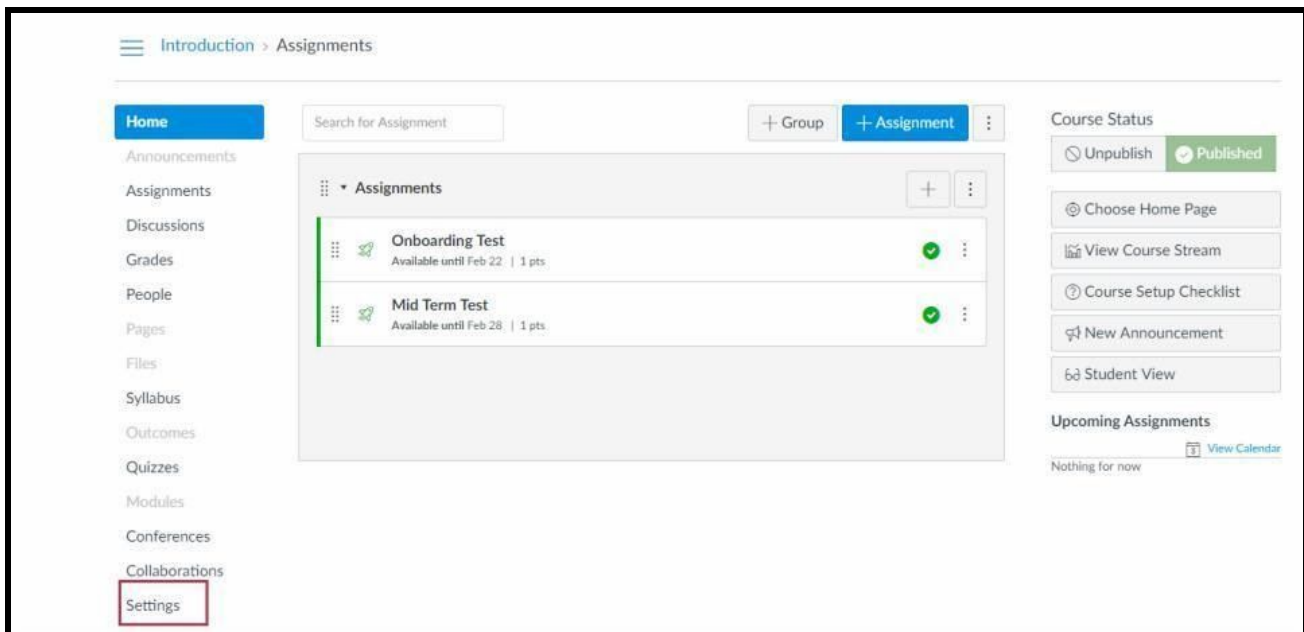

Name	Details	Type	State
Conjuguemos			ON OFF
 PlagiarismCheck.org			ON OFF
Proctortrack			ON OFF
 Pearson Learning Analytics Data Services			ON OFF

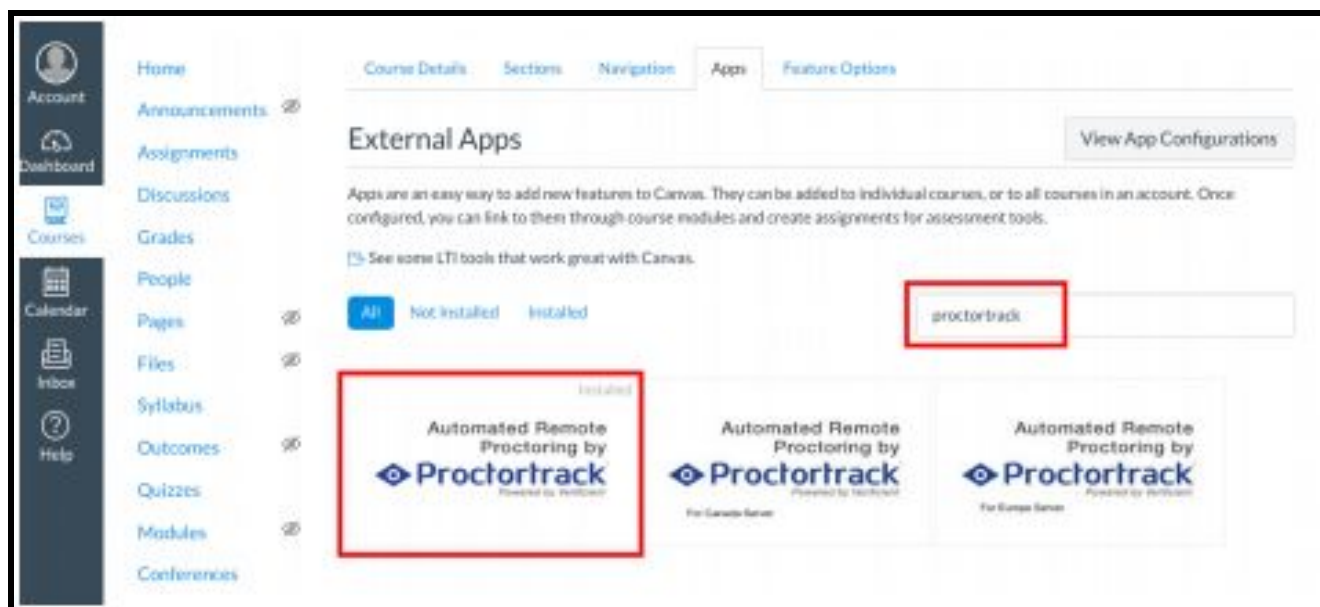

- You will be redirected to canvas dashboard. Please select the course for which **Proctortrack** needs to be enabled. You can also enable it on **account** level from account settings.

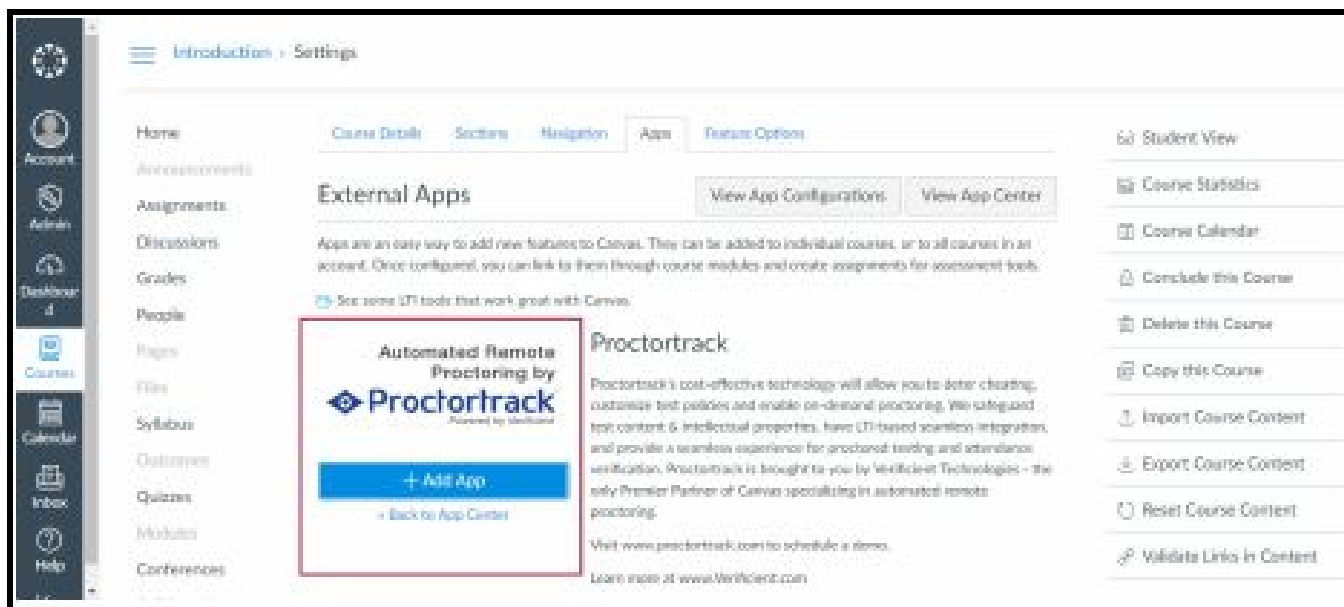

- Once into the course, select the **setting** button (located at the bottom of left navigation)

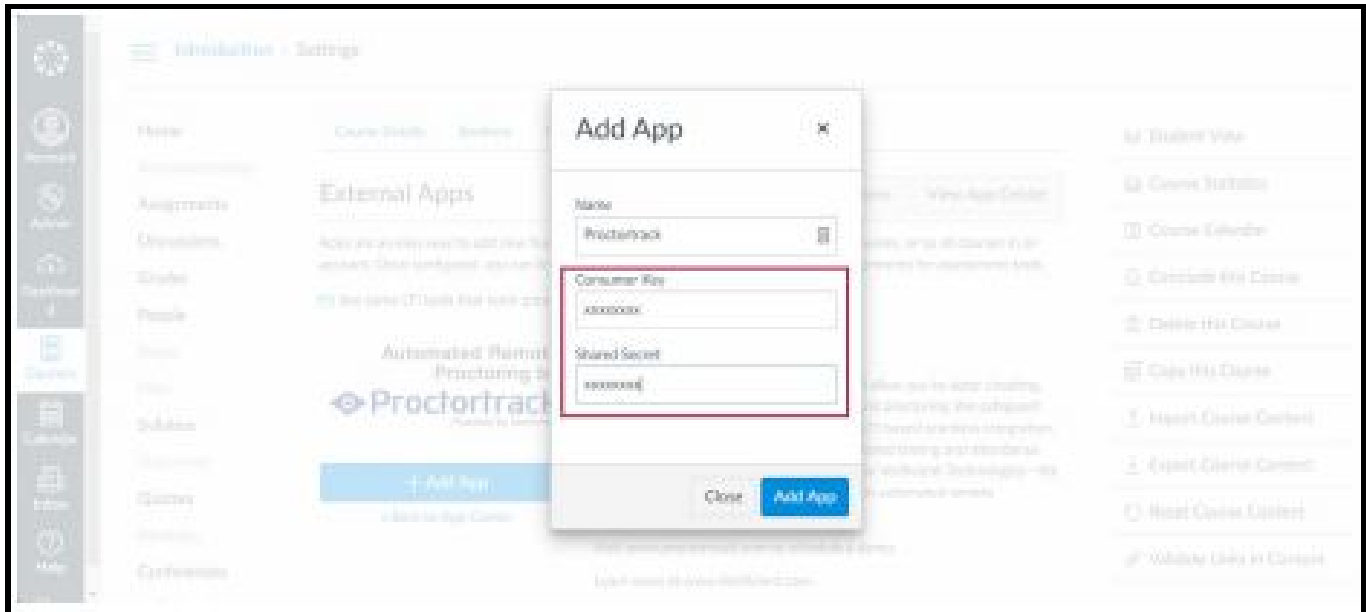

4. Select the “**Apps**” tab, now please use the search box to find Proctortrack and select the first one

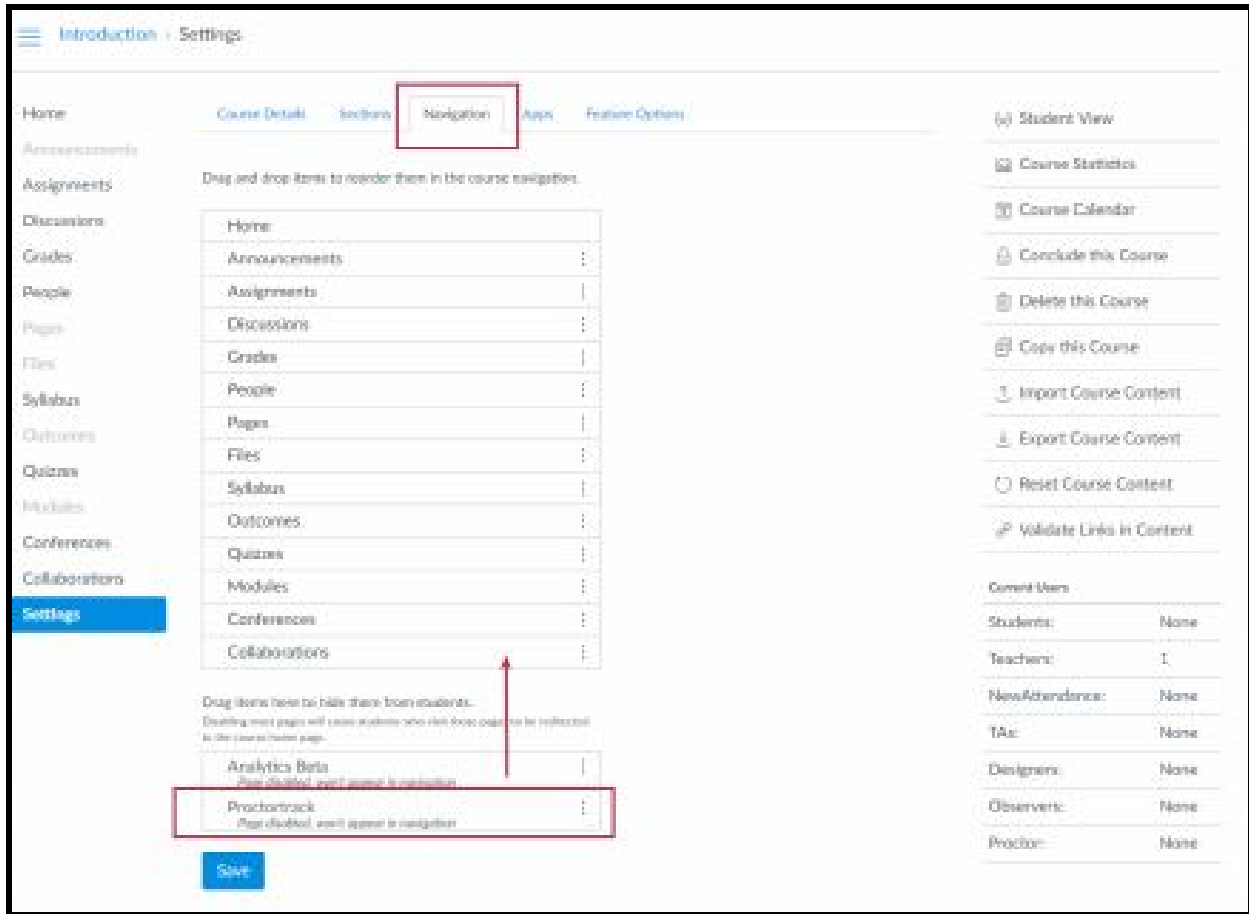

5. Now click on the “+ Add App” button.

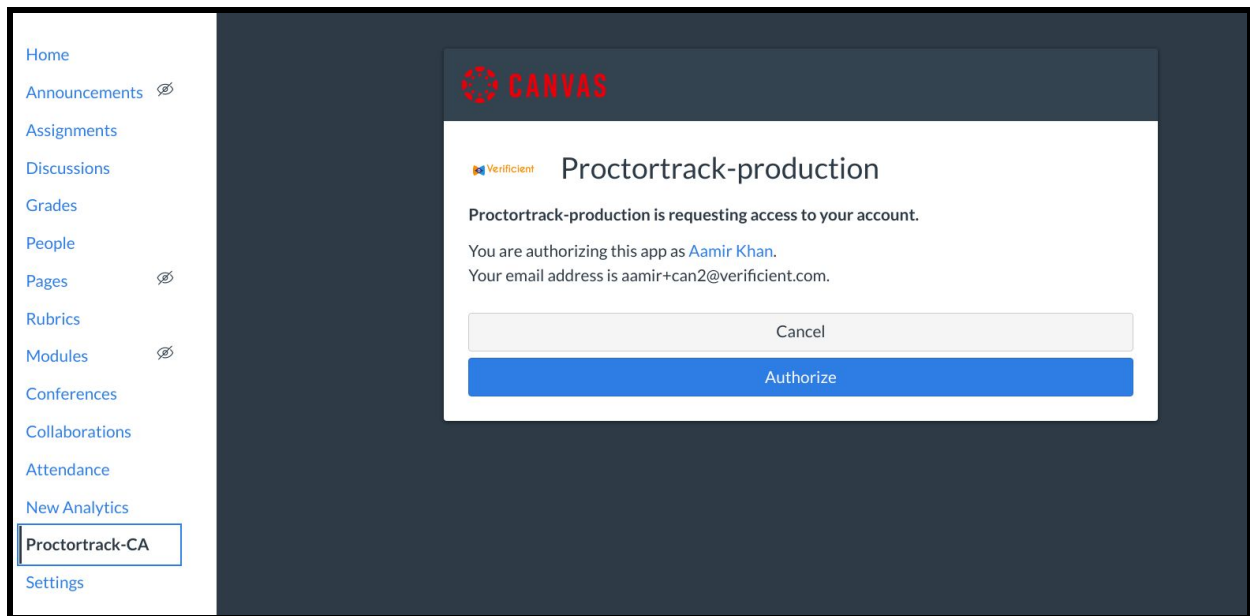

6. Add Consumer key and consumer secret in the modal window. (The credentials will be emailed separately)

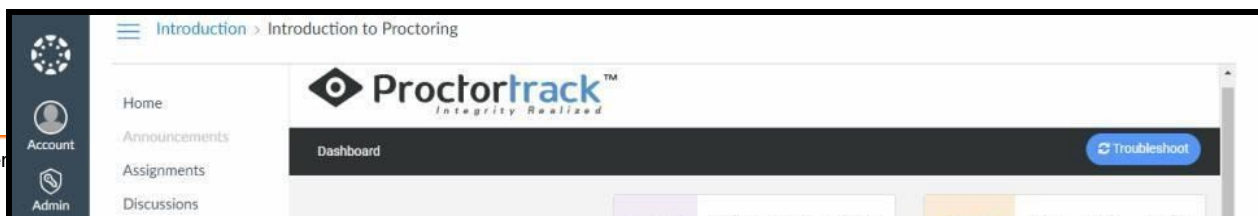

7. Once the Proctortrack app is added, it will be visible in the Navigation tab. (Ignore the steps of Proctortrack is already available in the top section). Please now move/drag the Proctortrack App in the top section and click Save. (This will make the app available in course navigation).

8. Now Proctortrack can be launched from course Navigation. Please click on “Authorize” and continue.

9. After successful authorization, Proctortrack will launch the Instructor Dashboard.

Please refer to our Proctoring manual to know about setting up proctoring exams.
